STAYING SAFE EVERYDAY
COVID-19 PREVENTION PREPAREDNESS PLAN
We live in a world where we have to expect the unexpected and be prepared at all the times. It is everyone’s right to be safe. And we need to ensure that we prepare, respond and recover from major incidents and emergencies.

As we navigate through COVID-19, our focus is to ensure the health and safety of our employees, their families, our customers, and our business partners. And, in the time of COVID-19, we have to change the way we approach every task and every activity. Not to do so would put our community at risk.

The Fluid Controls® COVID-19 Prevention Preparedness Plan is based on our business continuity planning strategy and a Comprehensive Emergency Management approach; and includes activities to respond to, and to set in place protocols to manage operations during the pandemic.

At Fluid Controls®, we Engineer Connections Everyday. We are now also committed to Staying Safe Everyday.

The Focus Five

**FOCUS 1**
SAFE DISTANCING
- Ensure safe distancing is maintained at all company work spaces
- Maintain 1 meter distance from people at all times – at home, at work, during travel

**FOCUS 2**
SCREENING & MONITORING
- Continuous monitoring of health at home and work place
- Non-contact temperature scanning (97.2°F/37°C) for all employees at work premises
- Usage of Aarogya-Setu app

**FOCUS 3**
WORKPLACE PROTOCOLS
- Thorough sanitization prior to start of activity
- Regular sanitization of all areas, touch prone areas
- Maintain safe distancing while working
- Follow operational guidelines as outlined in the Fluid Controls COVID-19 Operational Preparedness Manual

**FOCUS 4**
PREVENTION & AWARENESS
- Masks, gloves, and designated PPE for all employees
- Training of all employees – initially upon joining and at intervals

**FOCUS 5**
THE MANDATES
- No spitting anywhere in the premises
- Masks are mandatory for all employees
- Gloves are mandatory for designated operations
- Safe distancing to be maintained and will be monitored on-camera
- No meeting of more than 4 people – and at designated areas only
- No external customer/vendor visits

Health & Safety at Home
Symptoms of COVID-19

- Have a clear understanding of the COVID-19 symptoms
- Be vigilant with self and family member
- Ensure there is a thermometer at home
- If any symptoms are detected in any family member, call the local medical practitioner or reach out on the numbers provided by the local government
Health & Safety at Home
Hand Washing Guidelines

- Washing hands with soap and water is the best way to get rid of germs in most situations.
- If soap and water are not readily available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.
- Duration of the entire procedure: 40-60 seconds.

Source: https://www.who.int/gpsc/5may/resources/posters/en/
Wearing of a mask is mandatory at all times.
The Company will provide masks to all employees and impart training on how to wear a mask.
Health & Safety at Home
Ventilation

- Increase ventilation by opening the windows at least twice a day for at least an hour
- Avoid using air-conditioning
If using a lift:
- Wear a mask at all times
- To press any buttons, use tissue/gloves/elbow. Dispose of tissue/gloves responsibly. Avoid touching the elbow and wash the area as soon as possible
- Do not lean against the sides of the lift

If using the staircase:
- Wear a mask at all times
- Do not touch the railings
- Do not lean against the walls or take support of the walls
Health & Safety at Home
Care of Family Members

If someone in the neighborhood is a CONFIRMED case
- Go out only when necessary
- Wear a mask properly when going out
- Wash hands or take a bath after returning home
- Report to the relevant authorities in case of close contact with the confirmed case person

If there are children at home
- Don’t let children go outside
- Disinfect/Sanitize toys regularly
- Do not blow on baby food and keep their utensils separate
- Wash hands and bathe before greeting/playing with children after coming home

If there are elderly at Home
- Limit their daily activities and don’t let them go outside
- Keep them warm and monitor their health regularly
- Keep a close watch on senior citizens with chronic health conditions
- Inform the relevant authorities if you see any change in their health
