

Aspiration to make self-reliant India comes true!

Fluid Controls is one of the providers of instrumentation products and services for a variety of industrial applications. The company was the brain-child of Dr YE Moochhala, who completed his Ph.D. from Northwestern University in the US. He wanted to plough his expertise into making India self-reliant. He started Fluid Controls in 1974 and developed high quality, high-performance products to suit local climatic and performance expectations. Most significantly, Fluid Controls products are indigenous replacements of imported products. Today, his legacy is carried forward by his daughter Sophie Moochhala, Managing Director and Dr. Tansen Chaudhari, Chief Operating Officer.

From its inception, Fluid Controls has worked with customers in the oil and gas sector and related process industry. It has a track record of successful implementation

of both project and MRO supplies. Fluid Controls has approvals from all leading Oil and Gas OEM's and contractors in India. The company also executes projects with major refineries.

Fluid Controls is approved by ADNOC [Abu Dhabi National Oil Company] for compression fittings, instrumentation valves, manifolds and clamps. It has been a regular supplier to Schlumberger for high pressure 10000 PSI needle valves. Fluid Controls is EIL approved for the oil & gas supplies with product line of fittings, valves, manifolds & pre-fabricated hook-ups.

The company is in process of developing new products and integrated solutions for Oil & Gas applications such as sampling systems, expanding the range of high-pressure and high-temperature valves using unique sealing combinations, double block and bleed valves metal seated fire safe ball valves.
